DETAILED ACTION

Claim Objections

1. Claims 1-6 are objected to because of the following informalities: claim 1, line 1, "Method" should be replaced by "A method". In addition, "shown" should be replaced by "displayed", in each occurrence.; line 4, "in-phase" is mistyped as "in-phrase". Claim 2, "Method" should be replaced by "The method". The same comment applies to claims 3-5, respectively. Claim 3, line 6, "the powers" should be inserted before "of the code"; line 9, "colour" should be replaced by "color". Claim 6, line 1, "Analysis", should be replaced by "An analysis"; line 2, "having" should be replaced by "comprising"; line 2, "modulator" should be replaced by "demodulator"; line 3, "of" should be replaced by ",". "measurable" should be replaced by "measured". Claim 6, line 10, "able to be shown" should be replaced by "are displayed". The same comment applies to similar limitation in line 14 and line 18. note that any claims whose base claim is objected is likewise objected. Appropriate, correction is required.

Specification

2. The following guidelines illustrate the preferred layout for the specification of a utility application. These guidelines are suggested for the applicant's use.

Arrangement of the Specification

As provided in 37 CFR 1.77(b), the specification of a utility application should include the following sections in order. Each of the lettered items should appear in upper case, without underlining or bold type, as a section heading. If no text follows the section heading, the phrase "Not Applicable" should follow the section heading:

Art Unit: 2611

- (a) TITLE OF THE INVENTION.
- (b) CROSS-REFERENCE TO RELATED APPLICATIONS.
- (c) STATEMENT REGARDING FEDERALLY SPONSORED RESEARCH OR DEVELOPMENT.
- (d) THE NAMES OF THE PARTIES TO A JOINT RESEARCH AGREEMENT.
- (e) INCORPORATION-BY-REFERENCE OF MATERIAL SUBMITTED ON A COMPACT DISC.
- (f) BACKGROUND OF THE INVENTION.
 - (1) Field of the Invention.
 - (2) Description of Related Art including information disclosed under 37 CFR 1.97 and 1.98.
- (g) BRIEF SUMMARY OF THE INVENTION.
- (h) BRIEF DESCRIPTION OF THE SEVERAL VIEWS OF THE DRAWING(S).
- (i) DETAILED DESCRIPTION OF THE INVENTION.
- (j) CLAIM OR CLAIMS (commencing on a separate sheet).
- (k) ABSTRACT OF THE DISCLOSURE (commencing on a separate sheet).
- (l) SEQUENCE LISTING (See MPEP § 2424 and 37 CFR 1.821-1.825. A "Sequence Listing" is required on paper if the application discloses a nucleotide or amino acid sequence as defined in 37 CFR 1.821(a) and if the required "Sequence Listing" is not submitted as an electronic document on compact disc).

3. The abstract of the disclosure is objected because of the following informalities: please delete "fig. 3". Correction is required. See MPEP § 608.01(b).

Drawings

4. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the method steps as recited in claims 1-5, must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure

number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Response to Arguments

5. Applicant's arguments, see page 7, line 21-page 8, line 11, filed 7/2/07, with respect to rejection of claims 1 and 6 have been fully considered and are persuasive. The art rejection has been withdrawn. The drawings were previously rejected inadvertently under 37 CFR 1.83(b). The drawings should have been rejected under 37 CFR 1.83(a). The new drawing objection is set forth above.

Allowable Subject Matter

6. Claims 1-6 would be allowable if amended to overcome the objection set forth above.

Conclusion

7. This application is in condition for allowance except for the formal matters noted above.

Art Unit: 2611
